

Accessibility statement

Accessibility Statement

LöSi Getriebe-Steuerungs-Hydraulik GmbH strives to make its website and mobile applications barrier-free. We are guided by the legal requirements as well as the Web Content Accessibility Guidelines (WCAG) 2.1 at conformity level AA.

Status of compatibility with the requirements

This website is partially accessible according to the above guidelines.

Non-accessible content

Despite our best efforts, some content may not be completely accessible. These include:

- PDF documents published before 23.09.2018
- Videos without subtitles
- Maps that are not fully accessible
- Contrasts sometimes do not meet the minimum requirements.
- In some cases, alternative texts are missing from some images.

We are continuously working to improve the accessibility of our services.

Feedback and Contact

Have you noticed any deficiencies in the accessibility of content on our website? Or do you have comments and questions about accessibility? Then please contact us:
